

Kalmegh

Immune Support:

- 1. Fights Respiratory Infections: Reduces the severity of colds, coughs, and sore throats.
- 2. Stimulates Immune Defense: Activates white blood cells to protect against viruses and bacteria.

Liver Protection

- 1. Shields Liver Cells: Protects the liver from toxic damage caused by alcohol, chemicals, and infections while reducing liver inflammation.
- 2. Enhances Bile Flow: Promotes healthy bile secretion from the liver, which directly assists in processing fats and detoxifying the body.

Digestive Health

- 1. Boosts Appetite & Digestion: Stimulates gastric enzymes to cure a sluggish stomach and restore a lost appetite.
- 2. Relieves Constipation: Acts as a mild laxative to regulate daily bowel movements and clear waste.

Benefits of Kalmegh

Immune Support and Respiratory Relief

- It acts as an immunomodulator, helping the body recognize and defend against pathogens.
- It reduces the severity and duration of symptoms like coughing, running nose, and sore throats from colds or flu

Liver Protection and Digestive Health

- It helps stimulate bile flow, defends liver cells from oxidative stress, and acts as a bitter tonic to aid detoxification.
- It stokes the digestive fire (Agni in Ayurveda) to improve appetite and reduce bloating or sluggish digestion

WHY ONLY KALMEGH?

Why Kalmegh Stands Out:

- 🌱 Powerful traditional medicinal herb
- 🛡️ Traditionally associated with immune support
- 🌡️ Commonly used in traditional preparations for fever-related illnesses
- 🌿 Associated with digestive and liver health in traditional medicine
- 🌿 Contains important natural compounds, especially andrographolide
- ★ A unique and less common topic for a herbal plant project
